1 – 3 OCTOBER 2015

PLEVEN, BULGARIA

DEAR COLLEAGUES,

It's my pleasure to invite you to attend the Jubilee Scientific Conference, dedicated to the 10th anniversary of the Faculty of Public Health at the Medical University of Pleven.

Since its official establishment, the Faculty of Public Health has become for a short period a leading structure within our university and a solid educational centre for training of public health professionals and managers.

Nowadays public health issues gain significant priority and importance for global development. Bulgaria faces many negative public health trends and finding solutions for their overcoming is an urgent matter. We believe that the Jubilee Conference would provide health professionals with the opportunity to exchange valuable experience and ideas, and enhance their professional connections in the field of public health research and practice for prevention and control of public health processes, and health systems' development.
