PRACTICAL EXERCISES – THESES

PRACTICAL EXERCISES – TOPIC

MAKING DIAGNOSIS IN PEDIATRICS 1ST PART

PRACTICAL EXERCISES – THESES

Students to be introduced to the stages of the diagnostic process and their sequence and interaction.

Diagnostic process includes patients, their families, their environments and the health care professionals.

Diagnostic process is formed by goal-oriented actions.

PRACTICAL EXERCISES – TASKS

Diagnostic process stages:

1. Patient /patient's parents/ experiences health problem.
2. Patient seek medical help.
3. Health care professional gathers sufficient information:
 - Obtaining full pediatric history and interview
 - Performing exhaustive pediatric physical examination
 - Order diagnostic testing
 - Ask for interdisciplinary consultations if needed
4. Pediatrician synthesizes and interprets the information.
5. A diagnosis is worked out.
