

GENERAL REMARKS AND RECOMMENDATIONS

FOR E- LEARNING IN „INFECTIOUS DISEASE EPIDEMIOLOGY“

FOR STUDENTS AT MU - PLEVEN

(FOR SELF-TRAINING)

Dear colleagues,

The presentation in infectious disease epidemiology examination should be made as follows:

1. Disease definition.
2. Problem statement: geographical distribution, incidence.
3. Etiology.
4. Epidemiological determinants:
 - 4.1. Source /reservoir/ of infection;
 - 4.2. Mode of transmission;
 - 4.3. Susceptibility. Immunity;
 - 4.4. Environmental factors. Seasonality. Secular trends.
5. Preventive strategies.
6. Control measures: about the case, about the contacts, about the environment.
