## Clinical Toxicology for the academic 2019/2020 year

N	TOPIC	Data	
1.	Modern aspects of clinical toxicology. Basic principles of toxicokinetics and toxicodynamics. Basic therapies in poisoning. Antidotes - specific and nonspecific.	28.02.2020	Assoc. Prof. Barzashka, MD, PhD
2.	Differential diagnosis of coma in acute intoxications. Acute intoxication with cerebrototoxic drugs.	13.03.2020	Assoc. Prof. Barzashka, MD, PhD
3.	Acute drug intoxication with - heroin, cocaine, amphetamines, designer drugs. Toxicomania.	27.03.2020	Assoc. Prof. Barzashka, MD, PhD
4.	Acute poisoning with alcohols - ethanol, methanol and ethylene glycol. Acute poisoning with antabuse drugs.	10.04.2020	Assoc. Prof. Barzashka, MD, PhD
5.	Acute poisoning with agricultural poisons - FOC, carbamates, pyrethroids and others. Acute poisoning with technical preparations - acids, alkalis.	24.04.2020	Assoc. Prof. Barzashka, MD, PhD
6.	Acute intoxication with heavy metals and metalloids toxic gases. Intoxications with aromatic amines, aniline, nitro compounds and other methemoglobin educators and petroleum derivatives.	08.05.2020	Assoc. Prof. Barzashka, MD, PhD
7.	Acute poisoning with biological poison - snake venom, arthropods, fish etc. Mushroom poisoning - irritative, faloidni, muscarinic, panterinic. Acute poisoning of herbal origin	22.05.2020	Assoc. Prof. Barzashka, MD, PhD
8.	Acute poisoning with nicotinic acid, isonicotinic acid and their derivatives. Differential diagnosis of seizures at acute poisoning	05.06.2020	Assoc. Prof. Barzashka, MD, PhD

### Lecture:

**Friday – even week – 12:45 – 14:15 – AVC hall**

**Head of Clinic of Clinical Toxicology:  
Assoc. Prof. Evgenia Ivanova Barzashka-Hristova, MD, PhD**
